- 3) Early Registration : Jun. 15, 2011~ Aug. 15, 2011

Scientific Program (Tentative)

- Polymers
- Metals
- Ceramics
- Tissue Engineering/Regenerative Medicine
- Drug Delivery Systems
- Hydrogels/Implants
- Tissue (Cell)/Blood-Materials Interactions
- Surface Modifications and Characterizations
- Bioimaging, Biochips and Biosensors
- Artificial Organs
- Biotechnology
- Biomechanics/Biotribology

※ Selected abstracts or presentations will be published in the
(1) Journal of Biomaterials Science, Polymer
Edition, or (2) Biomedical Materials via
regular peer-review processes.

Venue

Busan is Korea's principal port and second largest city. It is the primary port for ferry service to Japan and is the gateway to the Hallyeo Maritime National Park and its picturesque island. As an international port city with a population of 3.8 million, Busan has first-class hotels and restaurants to match its excellent beaches, outstanding shopping and sightseeing areas.

BEXCO, a landmark of world-famous port city-Busan, has emerged as the most competitive exhibition and convention center in Northeast Asia. BEXCO has been holding numerous international events successfully including 2005 APEC Economic Leaders Meeting, 2002 FIFA world-cup Korea/Japan final draw ceremony, ICCA Annual Conference 2003, ITU Telecom Asia 2004, the Fourteenth ILO Asian Regional Meeting and UNESCAP Ministerial Conference on Transport 2006.
