강연제목: AI 기반 모바일 혈당 관리 서비스 파스타
AI-powered mobile diabetes app PASTA

Abstract:

Various devices and services are emerging in diabetes management, including CGMs and diabetes mobile apps. In this session, we will introduce PASTA, an AI-based mobile blood glucose management service launched by kakaohealthcare in February 2024. In particular, we will explain the food shot using AI vision technology and personalized AI features, and explain the future direction of PASTA.
